Summer 'sledding' at Alpine Slide

Wet or dry, sled or slide, Alpine Slide in Big Bear Lake has your ride to beat summer heat, and at last year's prices, too.

Kids will enjoy cooling off on the double water slide, filled with solar-heated water. Each twisting, turning flume is filled with cascading sprays that whip sliders through a maze of turns before dumping them into the pool at the bottom with a refreshing splash.

Water slide rides are inexpensive at a buck each, ten for \$8, or an all-day pass costs \$12. Parents who don't want to play don't have to pay to get in. Many parents spread a blanket out on the grass or take a seat on the two outdoor sun-decks and read a book or relax while the kids have fun.

Heat it up on the Alpine Slide bobsleds, where sledders are in for twists and turns as they negotiate individually-controlled sleds with teflon runners and ball-bearing wheels down two quarter-mile long tracks. It's a family-friendly ride for all ages that never needs snow but closely dupli-

cates Olympic bobsledding; youngsters and parents experience many of the same gravitational forces as they shoot through long straightaways and high-banked turns.

Riders control how fast, or slow, they choose to go. Stay off the hand brake, lean into each turn and go into a tuck through the straightaways for better aerodynamics to go fast; be liberal with the brake handle and sit upright to create wind drag to slow down. No two trips down are ever quite the same, and the Alpine Slide experience is a completely unique one, since there isn't another

ride like it in California. Skill does play a role in the experience; the more you ride, the better you get.

Each Alpine Slide ride begins with a trip up the scenic chairlift to the top of the mountain, where fabulous views of the forest and beautiful Big Bear Lake unfold.

Alpine Slide rides cost \$4 each, or \$18 for a five-ride book.

Alpine Slide at Magic Mountain also features Putt 'N Around go-karts and 18-hole miniature golf course, filled with water hazards, breaking greens and "sand traps."

New Can Am go-karts sport 5.5 horsepower Honda motors and a slew of safety features as they zip around the tire-lined track with high-banked turn. There's also a family-priced snack bar with hand-scooped ice cream and weekend barbecue on the deck.

Alpine Slide is a 1/4 mile west of the Big Bear Village shopping area, home to 60 specialty stores. For more information, call (909) 866-4626 or go online to alpineslidebigbear.com.

Summer fun at Knott's Berry Farm

Thrill rides for all ages make Knott's a family favorite

Looking for some summer excitement for the family? Knott's Berry Farm, America's first theme park, hosts a wide assortment of thrills that appeal from the youngest to the oldest in your family. A pioneer in the amusement park industry, Knott's Berry Farm strives to deliver "first of its kind" attractions. This philosophy is apparent in Knott's newest attraction, Pony Express – The Ride. Designed and manufactured by Zamperla of Vicenza, Italy, it is the first of its type designed by the company.

Named after the famous Pony Express, which promised a faster mail service on the North American continent, Knott's Pony Express delivers a horseback relay at speeds never imagined in the Old West. While sitting astride one of the team's 16 horses, riders leave their post with their stead launching them at a speed of 38 mph in less than 3 seconds. The terrain for the mounted riders is rugged as they navigate an ascending banked turn to a height of over 44 ft. then through a series of heart-pounding 60 degree banked turns covering a 1,300 foot route resulting in an exhilarating run-away adventure.

Want to take it up a notch? Just inside the gates you will be greeted by Silver Bullet. This \$16 million high-flying suspended coaster sends riders climbing to a height of 146 feet and soaring back down an initial drop of 109 feet. Riders find themselves upside down six times including one vertical loop of 105 feet all while suspended under 3,125 feet of track.

When coaster enthusiasts talk about the country's best coasters, the subject invariably turns to Knott's spectacular GhostRider. The 4,533-foot wooden wonder opened in December 1998 and quickly jumped to the top of coaster enthusiasts' "best ride" lists. And if that isn't fast enough for you, be sure to check out Xcelerator, the world's first hydraulically launched 50s-themed coaster that blasts riders 82 mph in just 2.3 seconds 20 stories up and straight back down at 90 degrees.

Other standouts in the Knott's coaster arsenal include park favorites Boomerang and Montezooma's Revenge, and coaster fans of all ages will want to pounce on Jaguar, a three-minute journey through the mysterious Temple of the Jaguar and high above the park.

Knott's also offers some of the world's most intense non-coaster thrills as well. Supreme Scream, one of the tallest thrill rides of its kind in the world, raises open-air riders 30 stories high before power-blasting them back to earth in three negative-gravity seconds at speeds topping 60 mph.

Knott's Pony Express ride

Just down the Boardwalk, Perilous Plunge sends passenger boats down a world-record 115-foot water chute at a 75-degree angle, just 15 degrees from sheer vertical. RipTide, with 720 degrees of attitude, spins passengers from the surface of a peaceful sea grotto to a height of about 60 feet.

Want a different kind of thrill? Knott's has gentler attraction experiences for the easy-going guest. Cross over the rushing waters of mystical Thunder Falls to find the inexplicable magic of award-winning Mystery Lodge. Climb aboard a painted pony for a nostalgic spin on a century-old carousel. Or, ride shotgun on an actual, bullet-riddled Butterfield Stagecoach, which, at nearly 60-years-old, is one of Knott's oldest rides.

A long-time Park favorite, the Timber Mountain Log Ride, is widely regarded as the best flume ride ever built. Traveling in hollowed-out logs, guests float through an 1880s sawmill before plunging down a 40-foot waterfall. Nearby, the Calico Mine Train carries passengers underground into a working gold mine.

A modern day pioneer project, Camp Snoopy was the first-ever theme park area dedicated solely to kids. The summer of 2007 brought the Sierra Sidewinder to this high-sierra themed area. This innovative coaster sends riders through dips and turns all while rotating on its axis. Overall, the six-acre wonderland offers more than 30 rides and attractions for little tykes and their parents. Charlie Brown Speedway, Snoopy's Red Baron airplanes, Camp Bus, Rocky Road Truckin' Company and Lucy's Tugboatsm all offer the perfect pint-sized thrill for children and their parents.

Just across Calico Square guests can board The Calico Railroad, an authentic 1881-steam train, for a surprise-filled trip around the park. Held-up by Knott's Ghost Town Bandits 10,000 times a year, the GT&CRR holds the distinction of having the worst crime rate of any railroad in the world. For kids, Knott's offers the charming Grand Sierra Scenic Railroad, an authentic scale-model steam train departing daily from its Camp Snoopy station.

Knott's also has plenty of entertainment offerings. "At Knott's, all of our shows are carefully integrated into the total park experience," Charles Bradshaw, Cedar Fair Entertainment Company's Vice President of Entertainment, said. "For example, when you're strolling through Ghost Town you just might find yourself in the middle of a rough 'n' tumble cowboy shootout or in Camp Snoopy don't be surprised to hear Charlie Brown singing about his troubles."

In the Old West Ghost Town feel free to drop by the Calico Saloon to visit Cameo Kate and Dakota Dan or to just sip on a tall, cool sarsaparilla. And don't leave without experiencing a showdown between the local gun-slingers or watching the blacksmith heat up his own authentic magic on Main Street.

A look inside the 2009 Art-A-Fair

View the best artistic works of local, national and international artists. The Art-A-Fair's 43rd season celebrates exhibiting artists and offers visitors an opportunity to "See the World Through An Artist's Eyes." The show opens June 26 and runs through August 30.

Art-A-Fair is a much-anticipated annual event in Laguna Beach and is one of three premier outdoor art shows held in Laguna each summer. The Art-A-Fair showcases artists primarily from

Orange County plus other parts of California, and several who travel from other states and countries. Exhibitors apply annually and are accepted through an Olympic jury system, which contributes to the high quality of art and master crafts among participants.

Twenty-six artists were juried in this year to exhibit for the first time, with the total at approximately 125. Artistic media represented includes painting, sculpture, photography, jewelry, pottery, and glass.

The Art-A-Fair is a fun and friendly environment located in pastoral Laguna Canyon in a beautiful garden setting. The festival features live entertainment on weekends, fine food and beverages and a snack bar by Tivoli Tool, daily workshops for adults and children, and free artist demonstrations on Fridays from noon to 3pm where several artists work from the same model to create different works of art in various mediums.

Live musical entertainment includes jazz, reggae, Motown, blues, classical, steel drum, and surf music, presented on the Art-A-Fair stage Saturdays and Sundays.

Art-a-Fair visitors can create their own masterpieces daily at workshops suitable for all ages. They're led by exhibiting artists and held from

10am to 4pm. Complete schedules can be found online at www.Art-a-fair.com.

The Art-A-Fair, Festival of Arts, and Sawdust Art Festival have joined forces with the Laguna Beach Visitors and Conference Bureau and the City of Laguna Beach to introduce the Passport to the Arts for the 2009 season. The Passport allows visitors unlimited admission to all three festivals for the entire summer season. A total of 500 unique artists and 300 hands-on workshops, dozens of special events, and an array of restaurants and other food purveyors are accessible with the Passport, plus one time all-day free parking with each \$19 ticket (a \$36 value). Additionally, selected retailers and merchants throughout Laguna Beach are offering special discounts to Passport holders. Order online at www.lagunabeachpassport.com.

Art-A-Faire is held at 777 Laguna Canyon Road, between the Sawdust Festival and the Festival of Arts. Hours Sunday through Thursday are 10am to 9pm, Friday and Saturday 10am to 10pm. Admission: Adults season ticket (unlimited admissions), \$7; Seniors, students and military season ticket, \$3.50; Children under 12 free with paid adult.

For more information, go online to www.art-a-fair.com or call (949) 494-4514. 

Festival of Arts a feast for the eyes

The Festival of Arts – California's Premier Fine Art Show, one of the nation's most highly acclaimed and attended juried fine art shows, will return this summer for its 77th season from July 5 through August 31, (closed August 29). This eclectic art show promises to delight visitors with thought-provoking fine original artwork for sale by over 145 nationally and internationally known and award-winning artists.

The Festival of Arts also includes a variety of nightly musical entertainment and special events. The Festival is California's longest-running outdoor fine art show and was voted outstanding arts organization by Arts Orange County in 2008. American Style Magazine has also listed it as one of the top 10 art shows in the United States two times in the last five years.

"The Festival of Arts in Laguna Beach is a summertime tradition that captivates us with outstanding artwork, music and special events. It showcases the finest original art from the coastal cities of Orange County, covering a complete spectrum of art media: from painting to jewelry to photography to handcrafted furniture and more," Marketing and Public Relations Director Sharbie Higuchi said.

The caliber of work on exhibit at the Festival each year attracts

buyers and collectors at all levels of connoisseurship. Many Festival artists have their work in the private collections of leading art collectors, celebrities and museums around the world.

Free art tours are held Monday through Friday at 11am and 3pm and Saturday and Sunday at 11am and 4pm. Meet the artists and learn firsthand about their artwork and techniques through discussions and free artist demonstrations.

In addition to the art show, the Festival offers a wide range of daily activities that the whole family can enjoy, including free daily art workshops and seminars for children and adults; daily live entertainment including visual and performing arts; and other special attractions during the eight-week event. For a complete list of activities visit www.LagunaFestivalofArts.org.

In addition to the adult Festival of Arts show, the Festival's Junior Art Exhibition, funded in part by the PIMCO Foundation, is another huge attraction comprised of over 300 pieces of artwork from Orange County school children. Also for the kids, the Festival hosts Youth Art Education Days, every Wednesday from July 15 through August 26 from 10am to noon and 1pm to 3pm. The classes will give children ages 5-12 the opportunity to experience a wide variety of arts, theater, music, painting and more (\$10 material fee per student/maximum 20 students per class).

From casual to elegant, the Festival offers two places to dine on the grounds. Tivoli Terrace Restaurant serves lunch and dinner during the Festival season in a beautiful garden setting. Live music is featured nightly. Gina's Alfresco offers casual Italian fare and is a complement to the Festival's artistic atmosphere.

Festival admission prices are \$7 for general admission and \$4 for seniors and students. All general admission tickets to The Festival of Arts – California's Premier Fine Art Show are season passes. Laguna Beach residents and Military personnel with ID receive free admission, as do children under the age of 12. Tickets for Pageant of the Masters are \$20-\$100 (depending on seat location and night of the week). Pageant of the Masters ticket holders can present their stub at The Festival of Arts front gate for free admission all summer long.

'Fandance' debuts in Big Bear

Hee Haw's Misty Rowe

Provocative, but never revealing, known as America's Treasure and Queen of the Fan Dancers, Sally Rand created one of the most famous dances of all time and helped save the Chicago World's Fair during The Great Depression.

With songs from the Big Band Era, original and classic music that brings alive 80 years of dance history, **Fandance: The Legend of Sally Rand**, is a story that will make you laugh, cheer and tug at your heart. *Fandance* is presented at the Big Bear Lake Performing Arts Center, August 7-9.

Fandance is written and choreographed by

Misty Rowe, whose 19 years on "Hee Haw" won her The Entertainer's Award from TV Land in 2007. *Fandance* is based on historical facts and the memory of her mother who met the famous fandancer twice, once at the beginning of her career and again at the end of her life. Dreams that inspire weave two women's lives together through their children; one, an infamous dancer, the other, an ordinary woman who now resides in Big Bear Community Hospital.

Fandance is directed by Beth Gardner. The world premiere of "Fandance" is being staged as a benefit for the hospital. Tickets are \$20 and \$25 and can be purchased online at

www.citybigbearlake.com, or call the Box Office at (909) 866-4970.

Bucky Covington

The 'Idol' plays at Fantasy Springs

He's one of country's fastest rising stars. His voice, his face and his hair are already a sensation with fans of America's most watched competition show, *American Idol*. Bucky Covington performs for one night only at Fantasy Springs Resort Casino on Friday, July 10, at 8pm.

Bucky Covington took eighth place in *American Idol*'s fifth season, but not long after leaving the show, he was flooded with calls from agents and producers. The call that seemed right came from the singer/producer of the band Sawyer Brown, who in fact got their start on *Star Search*.

Covington and Mark Miller of Sawyer Brown went to work on the *Idol* contestant's first album. Dozens of shows later and an album to show for all the hard work, Bucky Covington says he's now realizing his dream. The former auto mechanic is now touring the country, spreading his soulful, all-American charm. Through radio and TV, Bucky Covington proves to be one of country's hottest rising stars. The critics call his staying power "lasting."

Living History Flying Days at Planes of Fame Air Museum

Russian Yak Fighters

Russian Yak Fighters will be featured during the monthly Living History Flying Day at Planes of Fame Air Museum on the Chino Airport on Saturday, July 11. Because of the Fourth of July holiday, this event will be held on the second Saturday of the month instead of the museum's traditional first Saturday of the month date.

The event will begin with a seminar on Russian Yak fighter planes and is scheduled to conclude with a flight demonstration by a recently restored World War II Russian Yak-3 fighter.

Enthusiastic about airplanes from his earliest years, Aleksandr Sergeyevich Yakovlev

Oegan, working in Russia's aviation industry in 1923, was finally able to establish his own design bureau in July 1934. By the start of World War II, Yak fighter planes were already in series production and contributed tremendously to the eventual defeat of the German Luftwaffe on the Eastern Front. A very basic design that was rugged and easy to build, the Yak-3 fighter proved to be particularly effective and was manufactured in great numbers.

Aviation Archaeology

Planes of Fame Air Museum presents experts on aviation archaeology on August 1, 10am-12pm. The event will feature a flight of their Vought F4U-1A Corsair.

The event features Peter Merlin and Tony Moore, co-authors of the new book *X-Plane Crashes: Exploring Experimental, Rocket Plane, and Spycraft Incidents, Accidents and Crash Sites*, and Pat Macha, expert wreck finder and co-author of the book *Aircraft Wrecks in the Mountains and Deserts of California*.

Pat, Peter and Tony will share their experiences researching and locating historical crash sites. The presentation will be followed by a question and answer period, book signing, and flight demonstration.

The very first permanent museum of its type in the American west, Planes of Fame Air Museum is an independent, non-profit organization dedicated to the preservation of America's aviation heritage. Planes of Fame Air Museum is open to the public every day from 9am until 5pm. General admission is \$11, youngsters 5-11 are admitted for \$4, and admission is free for accompanied children under 5. For more information call (909) 597-3722 or visit the museum's website at www.planesoffame.org. Planes of Fame Air Museum is located at 7000 Merrill Avenue in Chino.

Be drawn in to the mystery of the black hole

By Dorothy Allmon

I grew up hearing people refer to the Black Hole of Calcutta, a somewhat “old school” expression. Historically speaking, the Black Hole of Calcutta was a real room in a British fort in Calcutta, India, where soldiers were once imprisoned. It was inescapable and many met their death in the Black Hole. In time, it became a symbolic reference to certain doom...if you went in you never came out alive!

Of course today, when we refer to a “black hole,” we are commonly referring to the term coined by a physicist named John Wheeler. While conducting a lecture in 1967, he coined the term “black hole” while describing a theoretical entity in the Universe resulting from the theory of general relativity. According to this theory, “a black hole can form when a massive star runs out of nuclear fuel and is crushed by its own gravitational force.” (NASA) Under certain circumstances, the star's matter is concentrated at a single point known as singularity. The gravitational force of “singularity” is infinite!

For centuries, scientists and mathematicians have debated the possible existence of black holes

in the Universe. One effect of black holes mimics that of the Black Hole of Calcutta. If you go in, you never come out! A critical characteristic of black holes is the event horizon. This refers to the surface of a black hole. The gravity of a black hole is so strong that anything crossing its surface, or event horizon, is pulled into its inner sanctum...never to escape!

Even light cannot escape a black hole's gravity. This restricts optical observations to the gravitational effects on stars and other matter around the event horizon. Scientists think that matter begins to compress and collide as it is pulled closer to the black hole. The friction caused by this process heats dust and gas particles, emitting light. Therefore, although the black hole itself is dark, the area around it can be very bright. Additional observations are made with x-ray, radio, and gamma ray sensitive equipment.

It is suspected that most galaxies have a super massive black hole at the center. That includes the Milky Way, our home galaxy. Scientists refer to it as Sagittarius A*...which reads Sagittarius A star (SgrA*). It is calculated to be about 26,000 light-years from Earth.
